

# THE RESIDENCE

*Caring, compassionate staff.*

## *Gracious assisted living.*

A comfortable, rewarding lifestyle can be yours at **The Residence** at our Health Campus.

The Residence offers gracious living, along with a professional staff that is dedicated to providing the assistance you need to remain active and as independent as possible. Residents enjoy beautifully designed private apartments, fine dining, individualized services and an array of activities tailored to their interests and abilities.

Our campus is guided by a philosophy unique to assisted living: "We are here to help you take care of yourself." We offer all the comforts of home, without the hassles of home ownership. Plus, there's added peace of mind in knowing that someone is there if you need assistance. A staff member is available 24 hours a day to assist, while helping you remain as independent as possible. Our four wellness levels provide a range of care options from moderate to comprehensive assistance. Individualized care and assistance is provided on a daily basis, all for one inclusive fee.

Your private, comfortable accommodations are steps away from all the amenities you'll enjoy. We encourage you to participate in our rewarding schedule of planned events. If you prefer, you can read a book by the fireplace in our cozy living room, choose your own hobby or simply enjoy the companionship of new friends who will enrich your life. Of course, while our residents are a lively community of close friends, individuality is at the heart of your personal choice lifestyle.

Here, casual living is yours with just the right blend of support. And, since our assisted living accommodations are part of a larger senior health campus, should you ever need it, around-the-clock skilled nursing care and comprehensive rehabilitation services, including physical, occupational and speech therapies, are available without having to leave your home.
